EXPERIENCE

UW Continuum College | Product Designer

Seattle, WA | Jan 2020 - June 2020

Designed tools to help reduce cognitive load and increase cooperation in online learning environments. Conducted research to evaluate the usability and functionality of tool to be integrated into upcoming online UW curriculum.

Tidy | Product Designer

Seattle, WA | Jan 2020 - June 2020

Utilized user centered design process to develop an app focused on helping roommates manage their shared living space.

Aclara Technologies | UX Design Intern

Herndon, VA | June 2019 - Sept 2019

Applied user centered design process to develop a scheduling portal aimed at increasing efficiency and safety of utilities technicians while also improving customer user experience. Also aided in implementing a UI refresh for internal applications.

SOARING Project | UX Researcher

Seattle, Wa | Jan 2018 - Mar 2018

Through an iterative process developed designs for managing health information for older patients while building on previous research. Led a smaller sub group focused on improving accessibility, usability, and customization within the designs.
